
1: With your neighbor, discuss a research scenario in which you have felt ethically unsure. Explain why you have felt unsure and how you proceeded (or plan to proceed) with your research project.

2: Make sure that you have Python 3 installed on your machine and Jupyter notebooks. We will not be using either today, but will begin using both tomorrow. Work with your neighbor and ask Allie or Brian if you run into any problems.

- Installing Python 3
 - Mac OS X (<https://docs.python-guide.org/starting/install3/osx/>)
 - Linux (<https://docs.python-guide.org/starting/install3/linux/>)
 - Windows (<https://docs.python-guide.org/starting/install3/win/>)
- Installing Jupyter (<http://jupyter.org/install>)
